Last update: 30-08-2022

This bibliographical database contains journal papers that have applied, extended, or analyzed the original BWM study: **Rezaei, Jafar. (2015). Best-worst multi-criteria decision-making method. *Omega* 53, 49-57.**

Papers that have only cited the method and have not applied, extended, or analyzed the method, and conference papers and book chapters are not included.

1. Abadi, F., Sahebi, I., Arab, A., Alavi, A., & Karachi, H. (2018). Application of best-worst method in evaluation of medical tourism development strategy. *Decision Science Letters*, 7(1), 77-86.
2. Abadi, Y. T. H., & Darestanian, S. A. (2021). Evaluation of sustainable supply chain risk: evidence from the Iranian food industry. *Journal of Science and Technology Policy Management*.
3. Abdali, H., Sahebi, H., & Pishvaee, M. (2021). The water-energy-food-land nexus at the sugarcane-to-bioenergy supply chain: A sustainable network design model. *Computers & Chemical Engineering*, 145, 107199.
4. Abdallah, Y. O., Shehab, E., & Al-Ashaab, A. (2022). Developing a digital transformation process in the manufacturing sector: Egyptian case study. *Information Systems and e-Business Management*, 1-18.
5. Abdel-Basset, M., Mohamed, R., Sallam, K., & Elhoseny, M. (2020). A novel decision-making model for sustainable supply chain finance under uncertainty environment. *Journal of Cleaner Production*, 269, 122324.
6. Abdel-Basset, M., Mohamed, R., & Elhoseny, M. (2020). A model for the effective COVID-19 identification in uncertainty environment using primary symptoms and CT scans. *Health Informatics Journal*, 26(4), 3088-3105.
7. Abdi, A., & Taghipour, S. (2019). Forecasting carbon price in the Western Climate Initiative market using Bayesian networks. *Carbon Management*, 10(3), 255-268.
8. Abdulkareem, K. H., Arbaiy, N., Zaidan, A. A., Zaidan, B. B., Albahri, O. S., Alsalem, M. A., & Salih, M. M. (2020). A novel multi-perspective benchmarking framework for selecting image dehazing intelligent algorithms based on BWM and group VIKOR techniques. *International Journal of Information Technology & Decision Making*, 19(03), 909-957.
